LAWS OF NORTH CAROLINA RELATING TO THE PRACTICE OF MEDICINE
Including Amendments of 1980

§ 90-1. North Carolina Medical Society incorporated. — The association of regularly graduated physicians, calling themselves the State Medical Society, is hereby declared to be a body politic and corporate, to be known and distinguished by the name of The Medical Society of the State of North Carolina.

§ 90-2. Board of Examiners. — In order to properly regulate the practice of medicine and surgery, there shall be established a board of regularly graduated physicians, to be known by the title of The Board of Medical Examiners of the State of North Carolina, which shall consist of seven regularly graduated physicians.

§ 90-3. Medical Society appoints Board. — The Medical Society shall have power to appoint the Board of Medical Examiners.

§ 90-4. Board elects officers and fills vacancies. — The Board of Medical Examiners is authorized to elect all such officers and to frame all such bylaws as may be necessary, and in the event of any vacancy by death, resignation, or otherwise, of any member of said Board, the Board, or a quorum thereof, is empowered to fill such vacancy.

§ 90-5. Meetings of Board. — The Board of Medical Examiners may assemble once in every year in the City of Raleigh, and shall remain in session from day to day until all applicants who may present themselves for examination within the first two days of this meeting have been examined and disposed of; other meetings in each year may be held at some suitable point in the State if deemed advisable.

§ 90-6. Regulations governing applicants for license, examinations, etc.; appointment of subcommittee. — The Board of Medical Examiners is empowered to prescribe such regulations as it may deem proper, governing applicants for license, admission to examinations, the conduct of applicants during examinations, and the conduct of examinations proper.

The Board of Medical Examiners shall appoint and maintain a subcommittee to work jointly with a subcommittee of the Board of Nursing to develop rules and regulations to govern the performance of medical acts by registered nurses. Rules and regulations developed by this subcommittee from time to time shall govern the performance of medical acts by registered nurses and shall become effective when adopted by both the Board of Medical Examiners and the Board of Nursing. The Board of Medical Examiners shall have responsibility for securing compliance with these regulations.

§ 90-7. Bond of secretary. — The secretary of the Board of Medical Examiners shall give bond with good surety, to the president of the Board, for the safekeeping and proper payment of all moneys that may come into his hands.

§ 90-8. Officers may administer oaths, and subpoena witnesses and records. — The president and secretary of the Board are empowered to administer oaths to all persons appearing before it as the Board may deem necessary to the performance of its duties, and to summon and to issue subpoenas for the appearance of any witnesses deemed necessary to testify concerning any matter to be heard before or inquired into by the Board, and to order that records concerning the treatment of patients relevant to the Board's inquiry be produced before the Board or for inspection and copying by representatives of the Board by the custodian of such records.

§ 90-9. Examination for license; scope; conditions and prerequisites. — It shall be the duty of the Board of Medical Examiners to examine for license to practice medicine or surgery, or any of the branches thereof, every applicant who complies with the following provisions: He shall, before he is admitted to examination, satisfy the Board that he has an academic education equal to the entrance requirements of the University of North Carolina, or furnish a certificate from the superintendent of public instruction of the county that he has passed an examination upon his literary attainments to meet the requirements of entrance in the regular course of the State University. He shall exhibit a diploma or furnish satisfactory proof of graduation from a medical college or an osteopathic college approved by the American Osteopathic Association at the time of his graduation, which time of graduation shall have been on January 1, 1960, or subsequent thereto and which medical and osteopathic schools shall require an attendance of not less than four years or for a lesser period of time approved by the Board, and supply such facilities for clinical and scientific instruction as shall meet the approval of the Board.

The examination shall cover the branches of medical science and subjects which the Board deems necessary to determine competence to practice medicine.

If the applicant successfully passes such examination as determined by the Board, and if the applicant also satisfies the Board that he has successfully completed one year of training after his graduation from medical school in a medical education program approved by the Board, the Board shall grant such applicant a license authorizing the applicant to practice medicine in any of its branches.

Applicants shall be examined by number only; names and other identifying information shall not appear on examination papers.

§ 90-10. Provision in lieu of examination. — In lieu of the above examination, the Board may grant a license to an applicant who is found to have passed the examination given by the National Board of Medical Examiners, or who has passed such other examination which the Board deems to be equivalent to the examination given by the Board, provided the applicant meets the other qualifications set forth in this Article.

§ 90-11. Qualifications of applicant for license. — Every person making application for a license to practice medicine or surgery in the State shall be not less than 21 years of age, and of good moral character, before any license can be granted by the Board of Medical Examiners.

§ 90-12. Limited license. — The Board may, whenever in its opinion the conditions of the locality where the applicant resides are such as to render it advisable, make such modifications of the requirements of

the preceding sections, both as to application for examination and examination for license, as in its judgment the interests of the people living in that locality may demand, and may issue to such applicant a special license, to be entitled a "Limited License," authorizing the holder thereof to practice medicine and surgery within the limits only of the districts specifically described therein. The holder of the limited license practicing medicine or surgery beyond the boundaries of the districts as laid down in said license shall be guilty of a misdemeanor, and upon conviction shall be fined not less than twenty-five dollars ($25.00) nor more than fifty dollars ($50.00) for each and every offense; and the Board is empowered to revoke such limited license, in its discretion, after due notice.

§ **90-13. When license without examination allowed.** — The Board of Medical Examiners shall in their discretion issue a license to any applicant to practice medicine and surgery in this State without examination if said applicant exhibits a diploma or satisfactory proof of graduation from a medical or osteopathic college, approved as provided in G.S. 90-9 and requiring an attendance of not less than four years or for such lesser period of time approved by the Board, and a license issued to him to practice medicine and surgery by the Board of Medical Examiners of another state, and has successfully completed one year of training after his graduation from medical college in a medical education and training program approved by the Board, in which program the Board may permit him to practice medicine. Such a license may be granted for such a period of time and upon such conditions as the Board may deem advisable.

§ **90-14. Revocation, suspension, annulment or denial of license.** — The Board shall have the power to deny, annul, suspend, or revoke a license, or other authority to practice medicine in this State, issued by the Board to any person who has been found by the Board to have committed any of the following acts or conduct, or for any of the following reasons:

(1) Immoral or dishonorable conduct;
(2) Producing or attempting to produce an abortion contrary to law;
(3) Made false statements or representations to the Board, or who has willfully concealed from the Board material information in connection with his application for a license;
(4) Repealed by Session Laws 1977, c. 838, s. 3;
(5) Being unable to practice medicine with reasonable skill and safety to patients by reason of illness, drunkenness, excessive use of alcohol, drugs, chemicals, or any other type of material or by reason of any physical or mental abnormality. The Board is empowered and authorized to require a physician licensed by it to submit to a mental or physical examination by physicians designated by the Board before or after charges may be presented against him, and the results of examination shall be admissible in evidence in a hearing before the Board;
(6) Unprofessional conduct, including, but not limited to, any departure from, or the failure to conform to, the standards of acceptable and prevailing medical practice, or the ethics of the medical profession, irrespective of whether or not a patient is injured thereby, or the committing of any act contrary to honesty, justice, or good morals, whether the same is

committed in the course of his practice or otherwise, and whether committed within or without North Carolina;

(7) Conviction in any court of the commission of a crime involving moral turpitude, or of the violation of a law involving the practice of medicine or the conviction of a felony;

(8) By false representations has obtained or attempted to obtain practice, money or anything of value;

(9) Has advertised or publicly professed to treat human ailments under a system or school of treatment or practice other than that for which he has been educated;

(10) Adjudication of mental incompetency, which shall automatically suspend a license unless the Board orders otherwise;

(11) Lack of professional competence to practice medicine with a reasonable degree of skill and safety for patients. In this connection the Board may consider repeated acts of a physician indicating his failure to properly treat a patient and may require such physician to submit to inquiries or examinations, written or oral, by members of the Board or by other physicians licensed to practice medicine in this State, as the Board deems necessary to determine the professional qualifications of such licensee;

(12) Promotion of the sale of drugs, devices, appliances or goods provided for a patient in such a manner as to exploit the patient for financial gain of the physician;

(13) Suspension or revocation of a license to practice medicine in any other state, or territory of the United States, or other country.

For any of the foregoing reasons, the Board may deny the issuance of a license to an applicant, revoke a license issued to it, may suspend such a license for a period of time, and may impose conditions upon the continued practice after such period of suspension as the Board may deem advisable, may limit the accused physician's practice of medicine with respect to the extent, nature or location of his practice as the Board deems advisable. The Board may, in its discretion and upon such terms and conditions and for such period of time as it may prescribe, restore a license so revoked or rescinded.

§ 90-14.1. Judicial review of Board's decision denying issuance of a license. — Whenever the Board of Medical Examiners has determined that a person who has duly made application to take an examination to be given by the Board showing his education, training and other qualifications required by said Board, or that a person who has taken and passed an examination given by the Board, has failed to satisfy the Board of his qualifications to be examined or to be issued a license, for any cause other than failure to pass an examination, the Board shall immediately notify such person of its decision, and indicate in what respect the applicant has so failed to satisfy the Board. Such applicant shall be given a formal hearing before the Board upon request of such applicant filed with or mailed by registered mail to the secretary of the Board at Raleigh, North Carolina, within 10 days after receipt of the Board's decision, stating the reasons for such request. The Board shall within 20 days of receipt of such request notify such applicant of the time and place of a public hearing, which shall be held within a reasonable time. The burden of satisfying the Board of his qualifications for licensure shall be upon the applicant. Following such hearing, the Board shall determine whether the applicant is qualified

to be examined or is entitled to be licensed as the case may be. Any such decision of the Board shall be subject to judicial review upon appeal to the Superior Court of Wake County upon the filing with the Board of a written notice of appeal with exceptions taken to the decision of the Board within 20 days after service of notice of the Board's final decision. Within 30 days after receipt of notice of appeal, the secretary of the Board shall certify to the clerk of the Superior Court of Wake County the record of the case which shall include a copy of the notice of hearing, a transcript of the testimony and evidence received at the hearing, a copy of the decision of the Board, and a copy of the notice of appeal and exceptions. Upon appeal the case shall be heard by the judge without a jury, upon the record, except that in cases of alleged omissions or errors in the record, testimony may be taken by the court. The decision of the Board shall be upheld unless the substantial rights of the applicant have been prejudiced because the decision of the Board is in violation of law or is not supported by any evidence admissible under this Article, or is arbitrary or capricious. Each party to the review proceeding may appeal to the Supreme Court as hereinafter provided in G.S. 90-14.11.

§ **90-14.2. Hearing before revocation or suspension of a license.** — Before the Board shall revoke, restrict or suspend any license granted by it, the licensee shall be given a written notice indicating the general nature of the charges, accusation, or complaint made against him, which notice may be prepared by a committee of one or more members of the Board designated by the Board, and stating that such licensee will be given an opportunity to be heard concerning such charges or complaint at a time and place stated in such notice, or at a time and place to be thereafter designated by the Board, and the Board shall hold a public hearing not less than 30 days from the date of the service of such notice upon such licensee, at which such licensee may appear personally and through counsel, may cross-examine witnesses and present evidence in his own behalf. A physician who is mentally incompetent shall be represented at such hearing and shall be served with notice as herein provided by and through a guardian ad litem appointed by the clerk of the court of the county in which the physician has his residence. Such licensee or physician may, if he desires, file written answers to the charges or complaints preferred against him within 30 days after the service of such notice, which answer shall become a part of the record but shall not constitute evidence in the case.

§ **90-14.3. Service of notices.** — Any notice required by this Chapter may be served either personally or by an officer authorized by law to serve process, or by registered mail, return receipt requested, directed to the licensee or applicant at his last known address as shown by the records of the Board. If notice is served personally, it shall be deemed to have been served at the time when the officer delivers the notice to the person addressed. Where notice is served by registered mail, it shall be deemed to have been served on the date borne by the return receipt showing delivery of the notice to addressee or refusal of the addressee to accept the notice.

§ **90-14.4. Place of hearings for revocation or suspension of license.** — Upon written request of the accused physician, given to the secretary of the Board 20 days after service of the charges or complaints against

him, a hearing for the purpose of determining revocation or suspension of his license shall be conducted in the county in which such physician maintains his residence, or at the election of the Board, in any county in which the act or acts complained of occurred. In the absence of such request, the hearing shall be held at a place designated by the Board, or as agreed upon by the physician and the Board.

§ **90-14.5. Use of trial examiner or depositions.** — Where the licensee requests that the hearing herein provided for be held by the Board in a county other than the county designated for the holding of the meeting of the Board at which the matter is to be heard, the Board may designate in writing one or more of its members to conduct the hearing as a trial examiner or trial committee, to take evidence and report a written transcript thereof to the Board at a meeting where a majority of the members are present and participating in the decision. Evidence and testimony may also be presented at such hearings and to the Board in the form of depositions taken before any person designated in writing by the Board for such purpose or before any person authorized to administer oaths, in accordance with the procedure for the taking of depositions in civil actions in the superior court.

§ **90-14.6. Evidence admissible.** — In proceedings held pursuant to this Article the Board shall admit and hear evidence in the same manner and form as prescribed by law for civil actions. A complete record of such evidence shall be made, together with the other proceedings incident to such hearing.

§ **90-14.7. Procedure where person fails to request or appear for hearing.** — If a person who has requested a hearing does not appear, and no continuance has been granted, the Board or its trial examiner or committee may hear the evidence of such witnesses as may have appeared, and the Board may proceed to consider the matter and dispose of it on the basis of the evidence before it. For good cause, the Board may reopen any case for further hearing.

§ **90-14.8. Appeal from Board's decision revoking or suspending a license.** — A physician whose license is revoked or suspended by the Board may obtain a review of the decision of the Board in the Superior Court of Wake County or in the superior court in the county in which the hearing was held or upon agreement of the parties to the appeal in any other superior court of the State, upon filing with the secretary of the Board a written notice of appeal within 20 days after the date of the service of the decision of the Board, stating all exceptions taken to the decision of the Board and indicating the court in which the appeal is to be heard.

Within 30 days after the receipt of a notice of appeal as herein provided, either by an applicant or a licensee, the Board shall prepare, certify and file with the clerk of the superior court in the county to which the appeal is directed the record of the case comprising a copy of the charges, notice of hearing, transcript of testimony, and copies of documents or other written evidence produced at the hearing, decision of the Board, and notice of appeal containing exceptions to the decision of the Board.

§ **90-14.9. Appeal bond; stay of Board order.** — The person seeking the review shall file with the clerk of the reviewing court a copy of the notice of appeal and an appeal bond of two hundred dollars ($200.00) at

the same time the notice of appeal is filed with the Board. At any time before or during the review proceeding the aggrieved person may apply to the reviewing court for an order staying the operation of the Board decision pending the outcome of the review, which the court may grant or deny in its discretion.

§ 90-14.10. Scope of review. — Upon the review of the Board's decision revoking or suspending a license, the case shall be heard by the judge without a jury, upon the record, except that in cases of alleged omissions or errors in the record, testimony thereon may be taken by the court. The court may affirm the decision of the Board or remand the case for further proceedings; or it may reverse or modify the decision if the substantial rights of the accused physician have been prejudiced because the findings or decisions of the Board are in violation of substantive or procedural law, or are not supported by competent, material, and substantial evidence admissible under this Article, or are arbitrary or capricious. At any time after the notice of appeal has been filed, the court may remand the case to the Board for the hearing of any additional evidence which is material and is not cumulative and which could not reasonably have been presented at the hearing before the Board.

§ 90-14.11. Appeal to Supreme Court; appeal bond. — Any party to the review proceeding, including the Board, may appeal to the Supreme Court from the decision of the superior court under rules of procedure applicable in other civil cases. No appeal bond shall be required of the Board. The appealing party may apply to the superior court for a stay of that court's decision or a stay of the Board's decision, whichever shall be appropriate, pending the outcome of the appeal to the Supreme Court.

§ 90-14.12. Injunctions. — The Board may appear in its own name in the superior courts in an action for injunctive relief to prevent violation of this Article and the superior courts shall have power to grant such injunctions regardless of whether criminal prosecution has been or may be instituted as a result of such violations.

§ 90-15. License fee; salaries, fees, and expenses of Board. —Each applicant for a license by examination shall pay to the treasurer of the Board of Medical Examiners of the State of North Carolina a fee which shall be prescribed by said Board in an amount not exceeding the sum of two hundred dollars ($200.00) before being admitted to the examination. Whenever any license is granted without examination, as authorized in G.S. 90-13, the applicant shall pay to the treasurer of the Board a fee in an amount to be prescribed by the Board not in excess of one hundred dollars ($100.00). Whenever a limited license is granted as provided in G.S. 90-12, the applicant shall pay to the treasurer of the Board a fee of fifty dollars ($50.00), except where a limited license to practice in a medical education and training program approved by the Board for the purpose of education or training, the applicant shall pay a fee of ten dollars ($10.00). A fee of ten dollars ($10.00) shall be paid for the issuance of a duplicate license. All fees shall be paid in advance to the treasurer of the Board of Medical Examiners of the State of North Carolina, to be held by him as a fund for the use of said Board. The compensation and expenses of the members and officers of the said Board and all expenses proper and necessary in the opinion of the

Board to the discharge of its duties under and to enforce the laws regulating the practice of medicine or surgery shall be paid out of said fund, upon the warrant of the said Board and all expenses proper and necessary in the opinion of the officers and members of said Board shall be fixed by the Board but shall not exceed ten dollars ($10.00) per day per member for time spent in the performance and discharge of his duties as a member of said Board, and reimbursement for travel and other necessary expenses incurred in the performance of his duties as a member of said Board. Any unexpended sum or sums of money remaining in the treasury of said Board at the expiration of the terms of office of the members thereof shall be paid over to their successors in office.

For the initial and annual registration of an assistant to a physician, the Board may require the payment of a fee not to exceed a reasonable amount.

§ 90-15.1. Registration every two years with Board. — Every person heretofore or hereafter licensed to practice medicine by said Board of Medical Examiners shall, during the month of January, 1958, and during the month of January in every even-numbered year thereafter, register with the secretary-treasurer of said Board his name and office and residence address and such other information as the Board may deem necessary and shall pay a registration fee fixed by the Board not in excess of twenty-five dollars ($25.00). In the event a physician fails to register as herein provided he shall pay an additional amount of ten dollars ($10.00) to the Board. Should a physician fail to register and pay the fees imposed, and should such failure continue for a period of 30 days, the license of such physician may be suspended by the Board, after notice and hearing at the next regular meeting of the Board. Upon payment of all fees and penalties which may be due, not to exceed a total of two hundred dollars ($200.00) of accumulated fees and penalties, the license of any such physician shall be reinstated.

§ 90-16. Board to keep record; publication of names of licentiates; transcript as evidence; receipt of evidence concerning treatment of patient who has not consented to public disclosure. — The Board of Examiners shall keep a regular record of its proceedings in a book kept for that purpose, together with the names of the members of the Board present, the names of the applicants for license, and other information as to its actions. The Board of Examiners shall cause to be entered in a separate book the name of each applicant to whom a license is issued to practice medicine or surgery, along with any information pertinent to such issuance. The Board of Examiners shall publish the names of those licensed in three daily newspapers published in the State of North Carolina, within 30 days after granting the same. A transcript of any such entry in the record books, or certificate that there is not entered therein in the name and proficiency or date of granting such license of a person charged with the violation of the provisions of this Article, certified under the hand of the secretary and the seals of the Board of Medical Examiners of the State of North Carolina, shall be admitted as evidence in any court of this State when it is otherwise competent.

The Board may in an executive session receive evidence involving or concerning the treatment of a patient who has not expressly or impliedly consented to the public disclosure of such treatment as may be necessary for the protection of the rights of such patient or of the accused physician and the full presentation of relevant evidence. All

records, papers and other documents containing information collected and compiled by the Board, or its members or employees as a result of investigations, inquiries or interviews conducted in connection with a licensing or disciplinary matter shall not be considered public records within the meaning of Chapter 132 of the General Statutes; provided, however, that any notice to any licensee of a hearing in any proceeding shall be a public record within the meaning of Chapter 132 of the General Statutes; provided, however, that any notice or statement of charges against any licensee, or any notice to any licensee of a hearing in any proceeding shall be a public record within the meaning of Chapter 132 of the General Statutes, notwithstanding that it may contain information collected and compiled as a result of any such investigation, inquiry or interview; and provided, further, that if any such record, paper or other document containing information theretofore collected and compiled by the Board, as hereinbefore provided, is received and admitted in evidence in any hearing before the Board, it shall thereupon be a public record within the meaning of Chapter 132 of the General Statutes.

In any proceeding before the Board, in any record of any hearing before the Board, and in the notice of the charges against any licensee (notwithstanding any provision herein to the contrary) the Board may withhold from public disclosure the identity of a patient who has not expressly or impliedly consented to the public disclosure of treatment by the accused physician.

§ **90-17.** Repealed by Session Laws 1967, c. 691, s. 59.

§ **90-18. The person so practicing without license shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not less than fifty dollars ($50.00) nor more than one hundred dollars ($100.00), or imprisoned at the discretion of the court for each and every offense.

Any person shall be regarded as practicing medicine or surgery within the meaning of this Article who shall diagnose or attempt to diagnose, treat or attempt to treat, operate or attempt to operate on, or prescribe for or administer to, or profess to treat any human ailment, physical or mental, or any physical injury to or deformity of another person: Provided, that the following cases shall not come within the definition above recited:

If for any reason an assistant discontinues working at the direction or under the supervision of the physician who submitted the application under which the assistant is approved, such assistant shall so inform the board and his approval shall terminate until such time as a new application is submitted by the same or another physician and it is approved by the board.

When the proposed medical functions of an assistant to a physician shall include the prescribing of drugs, the supervising (backup) physician and the assistant shall review the formulary approved by the board, and shall acknowledge in the application to the board that they are familiar with the formulary and that such formulary will be a part of and incorporated in the approved standing orders. Changes in the formulary are to be approved by the board. In regard to changes the approved formulary may include any over-the-counter or non-prescription drug.

Prescriptions, except controlled substances, may upon specific orders of the supervising physician given before the prescription is issued, be written and issued by such assistant for the use by patients of drugs which are not included in the formulary. Such prescriptions shall be signed by the assistant with a notation thereon that the same was issued upon the specific order of the supervising physician. For example: Mary Smith, P.A., on order of John Poe, M.D. However, no prescription shall be written or issued by such assistant for any drugs which are specified as controlled substances under the Federal Controlled Substances Act.

Assistants to physicians who are approved to prescribe drugs as herein provided shall be assigned a number which shall appear on all prescriptions issued by such assistant. The names and numbers of such assistants shall be recorded and transmitted to the North Carolina Board of Pharmacy.

.0003 Requirements for Approval

Applicants who have graduated prior to December 31, 1980, shall be exempt from NCCPA certification.

Initial approval may be denied for any of the reasons set forth in 21 NCAC 32D .0006, Paragraph (1), hereof, as ground for termination of approval, as well as for failure to satisfy the board of the qualifications cited in Paragraph (1) of this Rule.

In hearings held pursuant to this Rule, the board shall admit and hear evidence in the same manner and form as prescribed by law for civil actions.

.0004 Moral Character

Every applicant shall be of good moral character, and the applicant shall have the burden of proving that he is possessed of good moral character.

All information furnished to the board by an applicant, and all answers and questions upon forms furnished by the board shall be deemed material and such forms and information shall be and become a permanent record of the board.

All investigations in reference to the moral character of an applicant may be informal, but shall be thorough, with the object of ascertaining the truth. Neither the hearsay rule, nor any other technical rule of evidence need be observed.

Every applicant may be required to appear before the board to be examined about any matter pertaining to his moral character.

.0005 Requirements for Recognition of Training Programs

Application for recognition of a training program by the board shall be made by letter and supporting documents from the director of the program and must demonstrate to the satisfaction of the board that such program fulfills the requirements set forth in the second through the eighth paragraph of this Rule. (All physicians' assistant programs approved by the American Medical Association Council on Medical Education are recognized by the board.)

The training program must be sponsored by a college or university with appropriate arrangements for the clinical training of its students, such as a hospital maintaining a teaching program. There must be evidence that the program has education as its primary orientation and objective.

The program must be under the supervision of a qualified director, who has at his disposal the resources of competent personnel adequately trained in the administration and operation of educational programs.

Adequate space, light and modern equipment must be provided for all necessary teaching functions. A library, containing up-to-date textbooks, scientific periodicals, and reference material pertaining to clinical medicine, its underlying scientific disciplines, and its specialties, shall be readily accessible to students and faculty.

The curriculum must provide adequate instruction in the basic sciences underlying the medical practice to provide the trainee with an understanding of the nature of disease processes and symptoms, abnormal tests, drug actions, etc. This must be combined with instruction, observation and participation in history taking, physical examination, therapeutic procedures, etc. This should be in sufficient depth to enable the graduate to integrate and organize historical and physical findings. The didactic instruction shall follow a planned and progressive outline and shall include an appropriate mixture of classroom lectures, textbook assignments, discussions, demonstrations, and similar activities. Instruction shall include practical instruction and clinical experience under qualified supervision sufficient to provide understanding of a skill in performing those clinical functions which the assistant may be asked to perform. There must be sufficient evaluative procedures to assure adequate evidence of competence. Although the student may concentrate his effort and his interest in a particular specialty of medicine, the program must insure that he possesses a broad general understanding of medical practice and therapeutic techniques.

Although some variation may be possible for the individual student, dependent on aptitude, previous education, and experience, the

curriculum shall be designed to require two or more academic years for completion.

The program must have a faculty competent to teach the didactic and clinical material which comprises the curriculum. The faculty shall include at least one instructor who is a graduate of medicine, licensed to practice in the location of the school, and whose training and experience enable him to properly supervise progress and teaching in clinical subjects. He shall be in attendance for sufficient time to insure proper exposure of the student to clinical teaching and practice. The program may utilize instructors other than physicians, but sufficient exposure to clinical medicine must be provided to insure understanding of the patient, his problem, and the diagnostic and therapeutic responses to this problem.

The program must, through appropriate entrance requirements, insure that candidates accepted for training possess: (1) ability to use written and spoken language in effective communication with physicians, patients, and others; (2) quantification skills to insure proper calculation and interpretation of tests; (3) behavioral characteristics of honesty and dependability; and (4) high ethical and moral standards, in order to safeguard the interest of patients and others.

To retain its recognition by the board, a recognized program shall:

(a) make available to the board yearly summaries of case loads and educational activities done by clinical affiliates, including volume of outpatient visits, number of inpatients, and the operating budget;
(b) maintain a satisfactory record of the entrance qualifications and evaluations of all work done by each student, which shall be available to the board; and
(c) notify the board in writing of any major changes in the curriculum or a change in the directorship of the program.

Recognition of a program may be withdrawn when, in the opinion of the board, the program fails to maintain the educational standards described above. When a program has not been in operation for a period of two consecutive years, recognition will automatically be withdrawn. Withdrawal of recognition from a program will in no way affect the status of an assistant who graduated from such program while it was recognized and who has been approved by the board.

.0006 Termination of Approval

The approval of an assistant shall be terminated by the board when, after due notice and hearing in accordance with the provisions of this Rule, it shall find:

(1) that the assistant has held himself out or permitted another to represent him as a licensed physician;
(2) that the assistant has in fact performed otherwise than at the direction or under the supervision of a physician licensed by the board;
(3) that the applicant has been required to perform, or has performed, a medical task or tasks, function or functions for which the applicant is not approved or for which the applicant is not qualified by training to perform including prescribing or dispensing of drugs not included in the approved formulary; or

(5) that the assistant has been convicted in any court, state or federal, of any felony or other criminal offense involving moral turpitude;

whose mental condition renders him unable to safely perform as an assistant to a physician; or

(7) that the assistant has failed to comply with any of the provisions of 21 NCAC 32D .0007 hereof.

Before the board shall terminate approval granted by it to an assistant it will give to the assistant and to the physician to whom he is certified a written notice indicating the general nature of the charges, accusation, or complaint preferred against him and stating that the assistant will be given an opportunity to be heard concerning such charges or complaints at a time and place stated in such notice, or to be thereafter fixed by the board, and shall hold a public hearing within a reasonable time. Following such hearing, the board shall determine on these regulations whether the approval of the assistant shall be terminated.

In hearings held pursuant to this Rule, the board shall admit and hear evidence in the same manner and form as prescribed by law for civil actions.

.0007 Method of Performance

An assistant must clearly identify himself as an assistant to a physician, a physician's assistant, or by some other appropriate designation, in order to insure that he is not mistaken for a licensed physician. This may be accomplished, for example, by the wearing of an appropriate name tag.

The assistant must generally function in reasonable proximity to the physician. If he is to perform duties away from the responsible physician, such physician must clearly specify to the board those circumstances which would justify this action and the written policies established to protect the patient.
